

## Responding to the environment with heat pumps for hot water.

The Dalian Commodity Exchange (DCE) was established in 1993. It is one of four futures exchanges under the supervision and management of the China Securities Regulatory Commission (CSRC), as approved by the State Council, and is the only futures exchange in Northeast China.

### Background

- Steam supply shutdown to the area around Xinghai Square in central Dalian.
- Environmental pollution control equipment required.

### Results

- Install CO2 Heat pump 80Y×2 units
- CO2 heat pumps with high energy efficiency and environmental performance were installed.
- ▶ CO2 heat pumps with high energy efficiency and environmental performance were installed.
